

Math Summer Work 2021

Dear Parents and Students,

This is the math summer work for third grade students going into fourth grade.

The students will complete the math summer work on Think Central. (They have used Think Central in third grade).

There will be 8 assignments posted on July 1, 2021. These assignments are due on July 31, 2021. On August 1, 2021 8 more assignments will be posted on Think Central. These assignments are due on August 31, 2021.

There is no need to bring back any paper in September stating you completed the assignments. I will go on Think Central to see who completed the summer assignments.

Have a great summer!!

Mrs. Henry
